Apologies in advance to anyone who may find this pattern to be insensitive. We've all been affected by covid-19 in different ways and we all cope in different ways. It just so happens my coping mechanism is making light of serious situations.

When I was a senior in high school, this nasty flu hit the school so hard we had to close for a day and a half due to low attendance. I got the flu AND a stupid t-shirt that reads "I survived the plague of '08". Given the circumstances, I figured it was time for a sequel.

Feel free to use three strands of DMC 907 rather than two for fuller coverage.
